Review Determination: After a complete review by the C-ID Math Reviewers (COREs), the submitted courses Math 1A and Math 1B, Calculus I and Calculus II from Moreno Valley College, Norco College, and Riverside City College has not received the requested C-ID designation of Math 900. The submitted COR's aligned with all but one of the areas of the C-ID descriptor. It appears that the required C-ID course content of integrals of inverse functions and transcendental functions such as trigonometric, exponential, or logarithmic is missing from the submitted course outline. Should the course be revised based on the provided recommendations, that is, contain all the required topics and objectives of the descriptor, and then resubmitted, the C-ID designation of Math 900 will be awarded.

Conditional approval decision appealed by Norco College articulation officer with the rationale that the topics specified by reviewers are listed in the MAT-1A course outline of record.

Appeal denied with the following comments from the reviewer:

The required C-ID course content #18 is:

"Derivatives and integrals of inverse functions and transcendental functions such as trigonometric, exponential or logarithmic"

What RCC has is:

"Derivatives of transcendental functions such as trigonometric, exponential, and logarithmic functions"
